IN GENERAL

The large classes at UT, while probably unavoidable, make one feel more like a number than a student. More classes than not I have never spoken with the instructor and often have never exchanged eye contact.

Do away with Chemistry (Kleinfelter on TV) and any other television classes.

① This survey covered classes ~~that~~ ~~available~~ taken winter quarter, as well as those regarded as 'Best Ever' and 'Worst Ever' by the interviewees.

In compiling this course sampling, we encountered many problems. We could not reach adequate amounts of students for a truly reliable analysis. Please keep this in mind as you use this guide.

② ~~Some~~ Some of the more flavorful responses we received would surely be libelous if published, so what you see ~~is~~ ~~not~~ ~~is~~ not all that we had gotten. ~~The~~ ^{se} ~~are~~ censored (what an ugly word) responses appear by themselves removed from context at the end of this section. Enjoy.

If you wish this guide were more accurate, complete, and reliable ^{drop us a line} ~~give us a call~~ and you can participate in the next one. It doesn't take much time and you'll help trouble shoot the UT academic system ①

- ① Every effort has been made to confirm the course names ~~numbers and instructor names~~ course information and name spellings. If there are mistakes, we apologize.
- ② If you received a poor review and are disgruntled, we invite
